

Green Facts About The Ben White Branch

Green Facts About This Facility

Building Currently Being Rated by Austin
Energy Green Building Program

**Building Site
Positioning
to Maximize
Ambient Light
and Minimize
Solar Heat Gain**

Building Materials and Construction Agent

- Energy Efficient Glass
- Recycled Content in Building Materials
- Onsite Construction Materials Recycling
- Low Volatile Organic Compounds (VOC's) in Interior Paints and Sealants
- Use of Rapidly Renewable Materials (Bamboo Furniture and Wheat Doors)
- Double Door at Entry Vestibule with Integral Floor Mat

**Verified Systems
are Performing
as Designed via
Independent
Commissioning
Process**

Water Collection / Use

- Rainwater and AC condensation collection
- Landscape Irrigation and Flush Toilets
- Dual Flush Toilets and Low-Flow Faucets with Sensors

Energy Production / Use

- Renewable Energy Production via Photovoltaic System
- Energy Code is Exceeded by 15%
- Dehumidification System
- High Efficiency Heating and Air Conditioning System
- High Efficiency Lighting / Automatic Light Fixture Dimming
- Close proximity to membership base, thereby reducing carbon emissions

**Concrete
Drive and
Parking Lot to
Reduce Heat
Island Effect**
