

Changes to Job Application System Effective July 1, 2016

Overview of Change

Effective July 1, 2016, University Federal Credit Union is transitioning to a new applicant tracking system for posting jobs and managing prospective candidate information. The new system will simplify the job application process and allow for more timely and relevant communication between candidates and the UFCU Recruiting Team.

Potential Impact to Prospective Candidates

If you applied for a current job opening with UFCU prior to July 1, 2016

No additional action is necessary. The UFCU Recruiting Team has your application on file and it will be reviewed by a Hiring Manager. You will be contacted directly if your skills and experience are a good fit for the role, and if you are selected to advance in the hiring process. However, we are unable to personally reach out to everyone who applies.

If you are interested in applying for a current job opening and you have not previously submitted an application to UFCU

No additional action is necessary. Please visit the job posting page of interest and apply by creating an account or by using your LinkedIn profile.

If you are interested in applying for a current job opening and you have previously submitted an application to UFCU

Please visit the job posting page of interest and apply by **creating a new account** or by using your LinkedIn profile.

Questions
