Documentation and Procedures

Task 1: Conversion Preparation

NOTE: If multiple computers do not use the same QuickBooks data file, skip step 3. QuickBooks activities such as **Online Banking** cannot be performed in multi-user mode because of the way the activities interact with a company data file.

 Switch to single user mode. For instructions to switch to single user mode, choose Help menu > QuickBooks Help. Search for Switch to Single User Mode and follow the instructions. **NOTE:** If you are not using Classic Mode (Register Mode), enable it for the conversion. You can change it back after the conversion is complete.

 Help. Search for Banking Feed Modes, select Bank Feeds Modes overview, scroll down, and
 follow the instructions.

- 3. If prompted for connectivity type, select **Web Connect**.
- 4. Click the **Import new transactions now** radio button, then click **OK**.

NOTE: If you previously removed the check from the "Always give me the option of saving to a file..." option, then this dialog will not display.

- 5. In the Select Bank Account dialog, click Use an existing QuickBooks account.
- 6. In the corresponding drop-down list, select your QuickBooks account, and click Continue.
